## Overview

The heating, ventilation and air-conditioning (HVAC) industry is in the midst of a dynamic era. However, air-distribution ductwork, a critical component of HVAC systems, has remained virtually unchanged since the early 1900s.

Several factors have introduced the need to revolutionise HVAC ductwork. Energy use has continued to escalate, and thus the demand for energy reducing solutions has intensified. Requirements for clean air are becoming increasingly prevalent. Speed of construction has become a valuable asset. Floor space and headroom are under constant pressure.

Kingspan PalDuct systems have been the pioneer in pre-insulated ducting. Pal was the first company in the world to introduce the innovative and revolutionary rigid pre-insulated ductwork as an alternative to sheet metal ductwork. It was invented by Claudio Ferraro of Bologna, Italy in 1965.

Kingspan Insulation has proven the value of its products and Kingspan PalDuct has been used in some of the most prestigious projects around the world, due to its known advantages over the traditional galvanised sheet metal ductwork.

Kingspan Insulation has commissioned state of the art manufacturing plants, established workshops in different regions worldwide and also provided specialised and comprehensive training courses conducted by service oriented and experienced trainers well-equipped with the latest technologies, all to ensure quality HVAC ductwork fabrications and installations. This is closely supervised by the representatives from subsidiary companies and sales offices worldwide.

In 2014 Kingspan Group acquired Pal International and assimilated it into its Insulation Division, which subsequently became responsible for the sales and marketing of Kingspan PalDuct products across the globe.

---

# Introduction

---

## What is Kingspan PalDuct Technology?

- Complete line of components and accessories.
- Professional hand tools and automated machinery.
- Specialised training courses for ductwork fabricators.
- “Duct Design Software” to size the ductwork and estimate the material needed.
- Technical Support.

## Advantages of Kingspan PalDuct Technology

- Easy to clean and hygienic.
- CFC/HCFC-free: helping to minimise the effects of Ozone Depletion and Global Warming
- Clean air: fibre-free insulation core.
- Resistance to fungus growth.
- Space saving: flush-fitting installation possible.
- Low  $\lambda$  value.
- Fast-track installation: rapid erection combined with single-x installation.
- On-site fabrication capability.
- No limits to duct sizes.
- High-compressive strength.
- High rigidity/integrity.
- Base material is impermeable to moisture.

## Specialised Training & Technical Support

Kingspan Insulation provides specialised and comprehensive training courses to appointed distributors and clients in order to ensure that fabricators carry out the fabrication of Kingspan PalDuct Systems for any project directly on-site, assuring fast and more accurate execution of duct installation requirements.

Kingspan Insulation also provides technical support to appointed distributors and clients in order to ensure the consistent quality of HVAC ductwork fabrication and installations.

## Certifications

Kingspan Insulation is ISO certified and complies with Management System standards: ISO 9001: 2015 (Quality management systems. Requirements), ISO 14001: 2015 (Environmental Management Systems. Requirements) and ISO 45001: 2018 (Health and Safety Management Systems. Requirements).

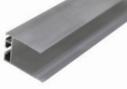

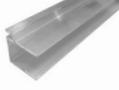

## CFC/HCFC-free Insulation Panel

People, nowadays, are becoming even more conscious of their impact on the environment. Kingspan PalDuct PIR Panel complies to the concern for the increasing Ozone Depletion and Global Warming.

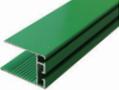

The system uses panels which comprise a polyisocyanurate (PIR) insulation core, that is manufactured with a CFC/HCFC-free blowing agent. The blowing agent used has zero Ozone Depletion Potential (ODP) and low Global Warming Potential (GWP).

# Kingspan PalDuct Panel Accessories

## Polymer/Aluminium Invisible Profile/ Aluminium Joint Profile

	Thickness	20 mm
	Code	4010 (Aluminium Invisible Profile) 4100 (Polymer)
	Nominal Length	4 m
	Thickness	30 mm
	Code	4040 (Aluminium Joint Profile) 4041 (Aluminium Invisible Profile)
	Nominal Length	4 m

## Kingspan PalDuct Eco System Green Colour Polymer/Aluminium Invisible Profile

	Thickness	20 mm
	Code	4063 (Aluminium) 4110 (Polymer)
	Nominal Length	4 m

## H Bayonet in Polymer

	Thickness	20 mm
	Code	4105
	Nominal Length	4 m

## Aluminium Channel

	Thickness	30 mm
	Code	4080
	Nominal Length	4 m

## Corner Cover in Polymer

	Thickness	20 mm
	Code	4350
	Thickness	30 mm
	Code	4390

## Corner Plate for Invisible Profile

	Thickness	20 mm
	Code	4360
	Thickness	30 mm
	Code	4400

## Steel Corner

Code	4380
------	------

## Polymer/Aluminium U Profile

Thickness	20 mm
-----------	-------

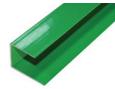

Code	4013 (Aluminium U Profile) 4101 (Polymer U Profile)
Nominal Length	4 m

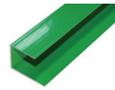

Thickness	30 mm
Code	4042 (Aluminium U Profile)
Nominal Length	4 m

## Kingspan PalDuct Eco System Green Aluminium U Profile

Thickness	20 mm
Code	4065
Nominal Length	4 m

Thickness	30 mm
Code	4082
Nominal Length	4 m

## Aluminium Chair Profile

Thickness	20 mm
Code	4015
Nominal Length	4 m

Thickness	30 mm
Code	4043
Nominal Length	4 m

# Automated and Manual Fabrication Equipment

## Automated Kingspan Ducting Supercut CNC Machine

Code	5004
------	------

### Manual

A complete set of professional hand tools and manual fabrication equipment has been specifically developed to enable the efficient and economical fabrication of ductwork. Ease of portability provides the option for on-site fabrication.

A full line of automated machinery is also available for high volume ductwork requirements.

## Portable Fabrication Table

Length (m)	4 x 1.2
Code	5054

## Compass

Code	8008

# Kingspan PalDuct Systems Order Guide

## 20 mm Panel (Internal Use)

To produce 1,000 m<sup>2</sup> of The Kingspan PalDuct PIR System, the following is a list of material and accessories for a standard construction requirement:

Code	Description	UOM	Approx. Qty.
11010	Panel 4000 x 1200 mm	m <sup>2</sup>	1,000
4010	Aluminium Invisible Profile	m	760
4105	H Bayonet in Polymer	m	400
4350	Corner Cover in Polymer	pc	900
4360	Corner Plate for Invisible Profile	pc	1,200
4013	Aluminium U Profile	m	80
4015	Aluminium Chair Profile	m	80
4017	Aluminium F Profile	m	80
4210	Kingspan PalDuct Contact Adhesive	kg	91
4300	Aluminium Tape	roll	150
4250	Kingspan PalDuct Sealant	tube	90

## 30 mm Panel (External Use)

To produce 1,000 m<sup>2</sup> of The Kingspan PalDuct PIR System, the following is a list of material and accessories for a standard construction requirement:

Code	Description	UOM	Approx. Qty.
1150	Panel 4000 x 1200 mm	m <sup>2</sup>	1,000
4040	Aluminium Invisible Profile	m	760
4080	Aluminium Channel	m	400
4380	Steel Corner	pc	1,500
4400	Corner Plate for Invisible Profile	pc	1,500
4461	Gasket	pc	400
4042	Aluminium U Profile	m	80
4043	Aluminium Chair Profile	m	80
4044	Aluminium F Profile	m	80
4210	Kingspan PalDuct Contact Adhesive	kg	90
4310	Aluminium Tape	roll	150
4250	Kingspan PalDuct Sealant	tube	90
4450	Reinforcement Bar in Aluminium	m	120
4454	Reinforcement Disc	pc	200

## Technical Service

Kingspan Insulation has one of the most technically advanced support services in the industry offering a full spectrum of advice, free of charge for all types of design projects.

The Kingspan Insulation technical team are continually updating their knowledge on building regulations, best practise, construction methods and the development of building materials to ensure the advice and services provided are always one step ahead.

### Services available:

- U-value calculations;
- condensation/dew point risk calculations;
- advice on product selection and product data for the full range of Kingspan Insulation products;
- installation and fixing advice on all applications and products;
- specification and construction advice; and
- Tapered Roofing Design service.
